

We are pleased to announce the creation of **Cane Technical Consulting Group**. Cane Tech is a newly formed information technology management and consulting company based in Quincy Illinois.

Cane Tech was founded by Quincy native and world renowned communications engineer Thomas Cane. Founded with a focus on bringing high tech solutions to the Quincy area.

If your business has an issue that you think can be solved by a creative implementation of technology and just never knew who to call, we are here for you.

We help in the acquisition and implementation of any information based technology solution. We find vendors that make the products you really need. We integrate solutions that really work. We manage the process from start to finish. We deliver concise and cost effective products that fit your exact need.

Visit our web page or simply pick up the phone and give us a call.
